

I am very upset by the decision of Sinclair Broadcasting to force their stations to air an anti-Kerry documentary days before the election.

Free press is a foundation of democracy, and to blatantly disregard it by forcing local stations to act on behalf of a media conglomerate is immoral.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. Sinclair's decision is not in the public interest, and certainly not in the interest of democracy.

Act in the interest of democracy and freedom. Protect the media from rule by a few conglomerates.

Thank you.
